

THE RATHER BEE GLAMPING GUIDE/ PLAN

CHOOSE THE RIGHT GLAMPSITE:

Research and choose a glamping area that fits your needs and preferences, including location, amenities, and available activities. Check the weather forecast and prepare accordingly. You have requested to stay within the National Forest System lands; the role for the NFS lands is to provide recreation opportunities to this great Nation's citizens

BRING THE RIGHT GEAR:

Bring the essential gear for glamping! Accommodations, package items & special requests will be provided. Make sure to pack appropriate clothing for the weather and any planned activities.

LEAVE NO TRACE:

Follow the "Leave No Trace" land ethics ideas & philosophy in all glamping activities to minimize your impact on the environment. This includes packing out all trash, avoiding damaging vegetation, and minimizing campfire impact. No cutting of any trees, bushes, or cactus for any purpose can be done.

CAMPFIRE SAFETY:

Follow proper campfire safety procedures to prevent wildfires. Use designated fire rings or pits and always keep a bucket of water or shovel nearby in case of emergency.. During Very High & Extreme Fire Danger, fires & smoking will NOT be permitted on the forest.

FOOD AND WATER:

Bring enough food and water for the duration of your trip. Consider bringing a water filter or purification tablets if the glampsite does not have potable water.

WILDLIFE SAFETY:

Respect wildlife and their habitats by keeping a safe distance and storing food and trash in bear-resistant containers. Learn about any potential wildlife hazards in the area and take appropriate precautions.

ADDITIONAL SAFETY

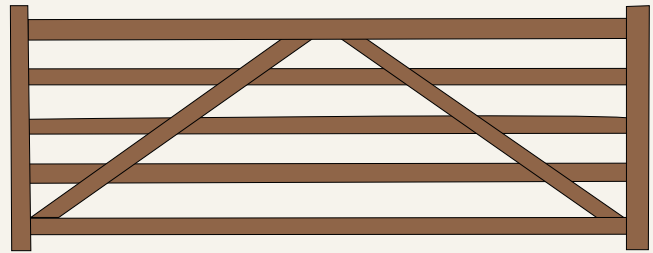

Plan ahead and be prepared for any potential emergencies or changes in weather conditions. A FIRST AID KIT is provided within your accommodations that will cover your group/ guest sizes. Share your itinerary with friends or family and make sure to have a reliable means of communication in case of emergency.

GATES

All gates encountered along trails will be carefully closed, unless it is apparent they are meant to be left open

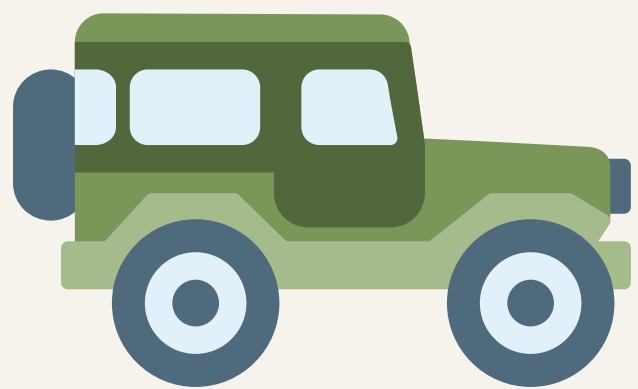

NO TRAPPING

No trapping will be done on Forest Service Lands

VEHICLES

Only use Forest Service System roads as identified on the Motor Vehicle Use. Seat belts will be worn by everyone while on Forest. Only sound, well-maintained vehicles will be used. Regular preventative maintenance will be carried out. No vehicle will be used unless it is fully in compliance with Arizona Revised Statutes. All vehicles will be equipped with an approved muffler or spark arrestor system. During wet periods, great care will be used so as not to damage muddy roads. During these conditions operation will be evaluated with guests and on foot with the use of backpacks.

BEARS

Black bears are forest residents. They are wild and unpredictable. They normally do not attack or threaten unless provoked, but food and odor will attract their interest. All employees, guests, and visitors must be informed that they are to abide by the following requirements. In addition to bears, other wildlife such as skunks, raccoons, are also attracted to available foodstuffs. Therefore, the following requirements will be enforced:

1. Feeding bears is strictly prohibited. Treat all wild animals as dangerous.
2. All food and garbage must be stored in bear-proof facilities. Odorous items as well, include such things as food, garbage, toothpaste, insect repellent, suntan lotion, etc.

3. Bear-proof garbage storage shall not be allowed to overflow.

4. Food shall not be left unattended where bears could have access to it.

5. Do not bury garbage, scatter organic waste, or leave foil or other food packaging in grills or campfires.

6. All garbage shall be transported to an approved sanitary landfill at frequent intervals at a minimum of once per week.

7. Garbage storage facilities shall be cleaned on a regular basis with hot water, soap, and disinfectant in order to minimize odors.

8. Garbage facilities (dumpsters, out-buildings, trailers, etc.) shall be kept clean, odor-free, and be bear-proofed.

Bears are extremely strong and persistent and appropriate measures must be taken to prevent bears from getting into garbage storage. It is important to prevent bears from detecting the presence of stored garbage, but if discovered by bears, it must be stored in a manner that will prevent them from getting to it.

9. Food service and eating areas shall be cleaned immediately after use and kept clean. Dishes and other food preparation materials shall be cleaned and stored immediately after food service has been completed, particularly if these facilities are outside. Thoroughly clean barbecue grills after use; remove and dispose of grease and food particles in bear-proof garbage facilities. Food is not to be kept or eaten in areas outside the designated food service locales, such as sleeping areas. This is especially important if these sites are outside or in tents.

NON- DISCRIMINATION POLICE

In accordance with Federal law and U.S. Department of Agriculture (USDA) civil rights regulations and policies, this institution is prohibited from discriminating on the basis of race, color, national origin, sex, age, disability, and reprisal or retaliation for prior civil rights activity.

Persons with disabilities who require alternative means of communication for program information (e.g., Braille, large print, audiotape, American Sign Language, etc.) should contact the responsible State or local Agency that administers the program or USDA's TARGET Center at (202) 720-2600 (voice and TTY) or contact USDA through the Federal Relay Service at (800) 877-8339.

To file a complaint alleging discrimination, complete the USDA Program Discrimination Complaint Form, AD-3027, found online at http://www.ascr.usda.gov/complaint_filing_cust.html, or at any USDA office or write a letter addressed to USDA and provided in the letter all of the information requested in the form. To request a copy of the complaint form, call (866) 632-9992. Submit your completed form or letter to USDA by: (a) mail: U.S. Department of Agriculture Office of the Assistant Secretary for Civil Rights, 1400 Independence Avenue, SW, Washington, D.C. 20250-9410; (b) fax: (202) 690-7442; or (c) email: program.intake@usda.gov."

USDA is an equal opportunity provider, employer, and lender.

Rather Bee Glamping operates under a permit from the Coronado National Forest.

ACKNOWLEDGEMENT

By signing this document, you are acknowledging the listed information within/ above. You understand you are to follow all procedures outlined within as well as any other provided information Rather Bee Glamping give in written correspond or verbal direction. While staying within/ on the Coronado National Forest, you fall under all rules & regulations enforced by said entity. This includes, but is not limited to; posted signs, employees, online announcements & closures. This signed acknowledgment should be readily accessible during your time within the Coronado National Forest.

By signing this document, you are acknowledging that safety procedures, a evacuation route & any additional “need to knows” regarding your stay will be provided to you for your specific location in which you select your set up.

Rather Bee Glamping operates under a permit from the Coronado National Forest.

All parties 18 years of age & over, staying within a Rather Bee Glamping accommodation upon National Forestry Land, shall be required to have a signed acknowledgment on file
